

Note # 1

Proposal for issue of Online Tender for procurement of 60 lakh of PP bags for packaging of imported urea arriving through PICT, Paradip for a period of 06 (six) months.

1. Based on requirement projected by G.M. (Marketing), GeM Contract Nos. GEMC-511687794491413 dated 27.08.2025 & GEMC-511687743971742 dated 27.08.2025 were placed on M/s SVS Polymers Private Limited, Rajam and M/s ABR Petro Products Private Limited Gorakhpur for supply of total 38 lakh (22.8+15.2) PP bags respectively FOR PICT, Paradeep following due procedure. A quantity of 2 lakh bags was reserved for Trial Order.
2. However, arrival of cargo at PICT, Paradeep has been significantly higher than the projected quantity. Approx. 3 lakh MT of urea has already been handled. Apart from approx. 0.69 lakh MT of urea lying at PICT, Paradeep for dispatch approx. 2 lakh MT of urea is further expected in the coming month. (Daily Report and e-mail of GM(Marketing) enclosed).
3. The ordered quantity against the existing GeM Contracts is going to be exhausted soon. Also, it has not been possible to meet huge requirement of the bags in time with only two suppliers. Efforts for parallel contract for procurement of 40 lakh bags could not materialize due to very high L1 price as compared to the existing GeM contract. More suppliers as well as quantity of bags are essentially needed to cater for the arriving/expected to arrive cargo at PICT, Paradeep.
4. In view of considerably higher quantity of cargo arriving at Paradeep with still 04 months left for the financial year it is considered essential to go for a new contract for procurement of 60 lakh bags. The indicative estimated cost for procurement of 60 lakhs PP bags based on Conversion Cost & Freight & Transit Insurance of the existing GeM contract and Granules rate as on 01.12.2025 will be approximately **Rs.9.8 crore** only (Annexure –II). Further, the dispatch of bags will be as per dispatch schedule provided to the prospective supplier (s) on periodic basis based on requirements given by Marketing department.
5. In view of the above, it is proposed to issue online NIT in two bids system through GeM portal on open tender basis with intimation to the 10 nos. pre-qualified vendors as per Annexure -I at an estimated cost of **Rs.9.8 crore** only (Calculation sheet enclosed at Annexure –II). 10% of the total quantity is proposed to be reserved

for Trial Orders on Start-Ups & MSE manufacturers nearby Paradip subject to acceptance of the L1 rate. As such tendered quantity would be 54 lakh bags. The NIT will have stipulation for delivery in phases and escalation/de-escalation of price based on PP granules price (Draft NIT enclosed). No tender paper cost will be applicable whereas EMD amount is proposed to be Rs. 2,00,000/- (Rupees Two lakh) only. Also. Option clause (25% of the estimated quantity) will be incorporated in the NIT.

6. M/s ABR Petro Products Limited, Gorakhpur has not been able to supply as per the schedule in the recent months. Consideration of their offer (in case of participation in the tender) will be subject to their performance in the coming month against the given dispatch schedule.
7. It is also proposed to constitute a Tender Committee comprising of the following officials for scrutiny & evaluation of the bids received and recommendation for finalization of contract:
 - i. G.M.(Marketing)
 - ii. GM (Tech)
 - iii) DGM (Contract Cell)
 - iv) Chief Manager (Finance)
 - vi) Manager (MM)

Submitted please for financial concurrence and kind approval.

ANNEXURE –I

List Of Approved Vendors

Sl. No.	Description
